*ARTICLES* *page*

*Samanea saman* Merrill: The Rain Tree. By K. E. Magnus and C. E. Seaforth, *University of the West Indies* . . . . . 6

Cashew Nut Processing—Part I. By F. J. Hall and L. Banks, *Tropical Products Institute* . . . . . 12

Growth of *Aspergillus flavus* and other Fungi in Windrowed Peanuts in Georgia. By Curtis R. Jackson, *Georgia Coastal Plain Research Station* . . . . . 27

The Work of the Ministry of Overseas Development . . . . 53

Sources of Starch in Commonwealth Territories: V. The Sweet Potato. By Y. R. Chadha and J. Dakshinamurthy, *Publications and Information Directorate*, New Delhi . . . . . 56

The Quality of Unshelled Groundnuts in The Gambia with Special Reference to Insect and Fungal Attack. By I. Pattinson and I. Thornton, *Department of Agriculture, The Gambia* . . . . 67

Biological Control of Pests: A Screw-Worm Factory in Texas. By D. G. Campion, *Tropical Pesticides Research Committee* . . . 92

Nucleus Plantations and Processing Factories: Their Place in the Development of Organized Smallholder Production. By T. A. Phillips, *Commonwealth Development Corporation* . . . . . 99

The Chemical Composition of Some Tropical Food Plants: IV. Manioc. By Miss R. M. Johnson and W. D. Raymond . . . . . 109

A Footrot Disease of Rice, Variety Blue Bonnet, in Northern Territory, Australia, Caused by *Fusarium moniliforme* Sheldon. By J. B. Heaton and J. R. Morschel . . . . . 116

Growth of *Aspergillus flavus* and Production of Aflatoxin in Groundnuts: VIII. By D. McDonald and C. Harkness . . . . . 122

The Chemical Composition of Some Tropical Foodstuffs: V. The Mango. By Miss R. M. Johnson and W. D. Raymond . . . 156

Problems Associated with the Development of Fisheries in Tropical Countries: III. The Preservation of the Catch by Simple Processes. By R. C. Cole and L. H. Greenwood-Barton . . . . . 165

*LIST OF REPORTS PUBLISHED BY TROPICAL PRODUCTS INSTITUTE, 1965* . . . . . 39, 77, 140, 204

*INDEX TO VOLUME VII* . . . . . 213

# INDEX

## Volume VII, 1965

*Scientific names and titles of books are printed in italics and personal names in capitals*

page

*African Husbandman*, by ALLAN, W. (Book Review) . . . . . 201
*Annual Review of Plant Physiology*, Vol. 16., Ed. by MACHLIS, L. and BRIGGS, W. R. (Book Review) . . . . . 139
*Aspergillus flavus*, growth of, and production of aflotaxin in groundnuts:
Part VII . . . . . 27
Part VIII . . . . . 122

BANKS, L., and HALL, F. J., cashew nut processing, Part I . . . . 12
Bibliographies . . . . . 40, 78, 141, 205
Biological control of pests, a screw-worm factory in Texas . . . . 92
Book Reviews . . . . . 35, 75, 138, 201

CAMPION, D. G., biological control of pests; a screw-worm factory in Texas . . . . . 92
Cashew nut processing, Part I . . . . . 12
CHADHA, Y. R., and DAKSHINAMURTHY, J., Sources of starch in Commonwealth territories: V. Sweet Potato . . . . . 56
*Chemical Constitution of Natural Fats*, by HILDITCH, T. P., and WILLIAMS, P. N. (Book Review) . . . . . 35
Chemical composition of some tropical foodplants:
Part IV. Manioc . . . . . 109
Part V. Mango . . . . . 156
*Common Trees of Puerto Rico and the Virgin Islands* by LITTLE, E. L. Jr., and WADSWORTH, F. W., (Book Review) . . . . . 37
COLE, R. C. and GREENWOOD-BARTON, L. H., problems associated with the development of fisheries in tropical countries: III. The preservation of the catch by simple processes . . . . . 165

DAKSHINAMURTHY, Y., and CHADHA, Y. R., sources of starch in Commonwealth territories: V. Sweet Potato . . . . . 56

FABRE, JEAN HENRI, Entomologist . . . . . 184
Fish preservation by simple processes . . . . . 165
Footrot disease of rice, caused by *Fusarium moniliforme* Sheldon . . 116

*Gardening in the Tropics*, by GREENSILL, T. M. (Book Review) . . . 35
GREENWOOD-BARTON, L. H. and COLE, R. C., problems associated with the development of tropical fisheries: III. preservation of the catch by simple processes . . . . . 165
Groundnuts,
growth of *aspergillus flavus* and production of aflatoxin in, . . 27, 122
quality of unshelled groundnuts in The Gambia with special reference to insect and fungal attack . . . . . 67

HALL, F. J., and BANKS, L., cashew processing, part I . . . . 12
HARKNESS, C. and MCDONALD, D., growth of *aspergillus flavus* and production of aflatoxin in groundnuts . . . . . 27
HEATON, J. B., and MORSCHEL, J. R., footroot disease of rice caused by *Fusarium moniliforme* Sheldon . . . . . 116

*Insecticides* by FEUELL, A. J. (Book Review) . . . . . 75
*Introduction to Comparative Entomology*, by FOX, R. M., and FOX, T. W. (Book Review) . . . . . 75

JACKSON, C. R., growth of *aspergillus flavus* and production of aflatoxin in groundnuts . . . . . 27
JASPERSON, H., and PRITCHARD, J. L. R., factors influencing the refining and bleaching of palm oil . . . . . 189
JOHNSON, Miss R. M. and RAYMOND, W. D., chemical composition of some tropical food plants:
IV. Manioc . . . . . 109
V. Mango . . . . . 156

MCDONALD, D., and HARKNESS, C., growth of *aspergillus flavus* and production of aflatoxin in groundnuts . . . . . 122
*Man, Crop, and Pests in Central America*, by ORDISH, G. (Book Review) . 36
Mango, chemical composition of . . . . . 156
Manioc, chemical composition of . . . . . 109
MORSCHEL, J. R., and HEATON, J. B., footroot disease of rice caused by *Fusarium moniliforme* Sheldon . . . . . 116

News Round-Up . . . . . 1, 49, 87, 149
Nucleus plantations and processing factories, their place in the development of smallholder production . . . . . 99

ORDISH, G., Jean Henri Fabre, Entomologist . . . . . 184

Palm oil, factors influencing the refining and bleaching of . . . . 189
PATTINSON, I., and THORNTON, I. quality of unshelled groundnuts in The Gambia . . . . . 67
Pests, biological control of, a screw-worm factory in Texas . . . . 92
PHILLIPS, T. A., nucleus plantations and processing factories, their place in the development of smallholder production . . . . . 99
*Photoperiodism and Seasonal Development of Insects* by DANILEVSKI, A. S., translated from the Russian by JOHNSON, J., (Book Review). 139
Plantations, nucleus, and processing factories, their place in the development of smallholder production . . . . . 99
Preservation of fish by simple processes . . . . . 165
PRITCHARD, J. L. R., and JASPERSON, H., factors influencing the refining and bleaching of palm oil . . . . . 189
Problems associated with the development of fisheries in tropical countries: III. the preservation of the catch by simple processes . 165

Quality of unshelled groundnuts in The Gambia with special reference to insect and fungal attack. . . . . 67

RAYMOND, W. D and JOHNSON, Miss R. M., chemical composition of some tropical food plants:
IV. Manioc . . . . . 109
V. Mango . . . . . 156
*Review of Africa: Oxford Regional Economic Atlas*. by ADY, HAZELWOOD, and others (Book Review) . . . . . 138
Rice, footroot disease of, caused by *fusarium moniliforme* Sheldon . 116

Scientific Principles of Crop Protection, by MARTIN, H. (5th Edition) (Book Review). . . . . 38
Screw-worm factory in Texas; biological control of pests . . . . 92
Smallholder production, place of nucleus plantations and processing factories in development of, . . . . . 99
Sources of starch in Commonwealth territories: Part V. Sweet Potato 56
Sweet potato, sources of starch in Commonwealth territories, part V . 56

THORNTON, I. and PATTINSON, I. quality of unshelled groundnuts in The Gambia . . . . . 67

# LISTS OF PLATES AND FIGURES

SAMANEA SAMAN MERRILL: THE RAIN TREE

*page*

PLATE I
*Samanea saman* Merrill: The Rain Tree . . *facing* 6

FIGURE I
Amino acids in *Samanea saman* leaves . . . 7

FIGURE 2
Chemical formula of pithecolobine . . . 8

CASHEW NUT PROCESSING—PART I

PLATE I
Eccentric crusher . . . . . *facing* 18

PLATES II and III
First prototype single nut-cutter, general view and detail . . . . . *between* 18 and 19

PLATE IV
Second prototype single nut-cutter . . . *between* 18 and 19

PLATE V
Centrifugal cracker . . . . . *facing* 19

FIGURE I
Process flow sheet, conventional method . . 15

FIGURE 2
Costs of cashew processing per ton of nuts . . 20

THE WORK OF THE MINISTRY OF OVERSEAS DEVELOPMENT

PLATE I
The 740-ft. high Bhakra dam in India is the highest straight gravity dam in the world. British firms supplied important equipment . . . *facing* 54

PLATE II
Students at the Institute of Administration, Zaria, Nigeria on a local government course . . *facing* 54

PLATE III
An inflatable plastic warehouse for storing tropical crops . . . . . *between* 54 and 55

PLATE IV
Sister Ann Laycock of Lincolnshire was recruited through the Ministry of Overseas Development to work in Zambia . . . . . *between* 54 and 55

PLATE V
Dr. Brian Hackman treating villagers in Laos who are suffering from conjunctivitis . . . *between* 54 and 55

PLATE VI
Mr. R. Welcomme from Essex, now a fisheries research officer in Uganda, prepares nets for fishing in Lake Victoria . . . . *between* 54 and 55

PLATES

PLATE VII
A class of the College of Business Studies, Kuala Lumpur, Malaysia . . . . . *facing* 55

PART VIII
Members of the Voluntary Service Overseas at London Airport on their return from service all over the world . . . . . *facing* 55

SOURCES OF STARCH IN COMMONWEALTH TERRITORIES: V. THE SWEET POTATO

PLATE I
Sweet Potato, white-skinned variety . . . *facing* 64

PLATE II
Sweet Potato, red-skinned variety. . . . . *facing* 65

BIOLOGICAL CONTROL OF PESTS: A SCREWWORM FACTORY IN TEXAS

FIGURE 1
The screw worm fly, *Cochliomyia hominivorax* . 93

FIGURE 2
Sterile screw worm fly production plant . . . . 95

NUCLEUS PLANTATIONS AND PROCESSING FACTORIES: THEIR PLACE IN THE DEVELOPMENT OF SMALL HOLDER PRODUCTION

PLATE I
Spraying against leaf disease at Mostyn Estate, Sabah. Smallholders' seedlings receive all the benefits available to those on the main estate . . . . . *facing* 106

PLATE II
Smallholders' oil palm seedings being unloaded in the field at Sabah near Kulai, Malaysia. Note the special carrying tubs . . . . . *facing* 106

PLATE III
Planting on the smallholder farms near Kulai. Seedlings are removed complete with bowl of earth from the carrying tub to the planting hole . . . . . *facing* 107

PLATE IV
Kulai Smallholder Scheme. General view of village . . . . . *facing* 107

CHEMICAL COMPOSITION OF SOME TROPICAL FOOD PLANTS: IV. MANIOC

PLATE I
General view of cassava plantation showing roots in foreground . . . . . *facing* 114

PLATE II
Prize cassava tubers . . . . . *facing* 115

PLATE III
Cassava roots as lifted . . . . . *facing* 115

PLATES

A Footrot Disease of Rice, Variety Blue Bonnet, in Northern Territory, Australia Caused by *Fusarium Moniliforme*, Sheldon

Plate I
Blue Bonnet rice showing (left) healthy specimens from control plants in buckets and (right) plants affected by footrot from the field at U.A.R.E.S. . . . . *facing* 118

The Chemical Composition of Some Tropical Food Plants: V. Mango

Plate I
Picking mangoes on the 200 acre plantation of Sheikh Omar bin Dahman, Chairman of the Malindi Farmers' Co-operative Society. *Courtesy: Kenya Information Services* . . . *facing* 160

Plate II
Grafting a mature mango cutting on to a young plant. *Courtesy: Kenya Information Services* . *facing* 161

Problems Associated With the Development of Tropical Fisheries: III. The Preservation of the Catch by Simple Processes

Plate I
Experimental fish curing station; South Arabia . *facing* 176

Plate II
Result of an experimental drying run; left: sun-dried; right: shade-dried tuna . . . . . *facing* 176

Plate III
Unsalted *Haplochromis* strung in 'mats' for drying, Uganda . . . . . *between* 176 and 177

Plate IV
Pit-cooked yellow-fin tuna, South Arabia . . *between* 176 and 177

Plate V
Fish boiling factory, Pangkor Island, Malaya. Left: wood-fired cooking vat; right: baskets in which fish are cooked and transported . . *between* 176 and 177

Plate VI
Traditional Chinese method of producing fermented shrimp paste; Pulau Ketam, Malaysia . . *between* 176 and 177

Plate VII
Boiling trepang before sun-drying, South Arabia . *between* 176 and 177

Plate VIII
Cutting shark on the beach. It is impossible to prepare a clean product after this treatment . *facing* 177

Plate IX
Baling dried fish for export, Aden . . . *facing* 177
